## PAFTE GRANTS SCHOLARSHIP

*DR. MARIA NOELEEN M. BORBAJO- PRO -PAFTE 7*

The Philippine Association for Teachers and Educators (PAFTE) Region VII granted a scholarship to Annie S. Igot last Friday, November 11, 2022, at Lapu-Lapu City College.

Annie S. Igot is a fourth-year Bachelor of Science in Elementary Education student from Lapu-Lapu City College.

Ms. Igot received five thousand cash from PAFTE Region VII. The awarding of the scholarship was witnessed by the leaders of the PAFTE Region VII, Dean of College of Education Dr. Noeleen Borbajo, and the presence of the College OIC, Atty Danilo Almendras.

Ms. Igot also received an additional five thousand cheque from Dr. Nancy Berame of Nancy Berame Child Care Center. "During the Trying times in Nancy Berame Child Care Center, some of the teachers left the school and look for other schools, but none from the products of Lapu-Lapu City College left us. The values that they learned from the school remained on them", said Dr. Berame. The Dean of the College of Education. Dr. Borbajo agreed with Dr. Berame, saying, "I agree, they really retained the values from the school."

The opportunity came when she needed it most. Ms. Igot has five other siblings. Studying all together has been quite challenging for them. She said, "There were so many times when my dream of pursuing my education seemed impossible, but as one of the students who want and is eager to pursue and achieve her dreams, I took action to have income, which is to sell products online." She made use of the online platform to sustain their needs. Because of her perseverance to sell products online and in studying, everything paid off as she received the scholarship. She added, "Receiving this scholarship will allow me to continue chasing my dreams, and your earnest investment in my future will never be forgotten."

The social responsibility of PAFTE Region is a brainchild of Cebuano-Educators' pride during her presidency in 2016, Dr. Filomena T. Dayagbil. It provided opportunities to the senior students of any educational institution until it became a tradition. A Bachelor of Science in Secondary Education major in English in Consolacion Community College was its first grantee in Region VII.

The association has six objectives for the students, the academe, and the government to ensure unity with different sectors and maintain teacher education standards through enlightened fellowship and effective leadership.
